Thrive: to grow vigorously: FLOURISH

If "thrive" means "vigorous growth," then we are thriving at the Children's Coalition. Beginning in August, the addition of three Early Head Start centers almost doubled the size of our staff and annual budget. In December, we became one of six agencies in the state to receive a high-profile federal award that created much-needed Pre-K slots. Child Care Connections and the Community Network Pilots became the gold standard for statewide reforms to increase quality early childhood care and education.

We also grew with the child by expanding our school-age programs to include partnerships with state agencies that explored adolescent health issues in Quachita Parish, built coalitions to address substance abuse in Union Parish, and added out-of-school programs at the Monroe Housing Authority. We expanded our Afterschool, Signs of Suicide and Parenting programs into rural parishes, and we created new community events that highlighted the unique needs of fathers and young children.

As you read through the Annual Report, you will see a lot of numbers. Each number represents a child or someone who cares for a child. As we grow as an organization, it is important not to lose sight of that child. Take a moment to look at their faces. Visit our website and hear their stories. Most of all, know that it is the combined efforts of our wonderful staff, dedicated board and amazing community partners that have allowed the Coalition to not only grow, but to also flourish—and in so doing, have created a community where children and families thrive.

-Lynn Clark, Executive Director

On behalf of the Board of Directors, we are pleased to report that the goals set at the start of this fiscal year are being met to the upmost degree. As most of you know, Lynda Gaviole, our founder and executive director for 16 years, retired last June. Due to the careful planning and excellent foundation that the Coalition is built upon, it has been a remarkably successful transition and year. Dr. Lynn Clark and the dedicated Coalition staff have done an exceptional job to maintain and grow the organization.

Children have always been the future and foundation of a great community. We all want to live in a thriving community with vast opportunities. The Children's Coalition strives to give every child the opportunities and resources needed to succeed, which will ultimately benefit everyone. The Coalition continues to bring together and close gaps between agencies, programs and resources for our children. We are proud to report our programs continue to be strong, and we are able to support not only Ouachita Parish but also involve our surrounding parishes as well.

While reading through this Annual Report, please take note of all the hard work to link and extend resources to children 0-18 years old. Through successful programs that continue our mission, we are able to reach so many children, but our mission will not cease and must go on. Thanks to our members, staff, board, educators, parents, partners and businesses we can continue to build a community where children and families thrive.

SCHOOL READINESS TAX CREDITS

Investing in early childhood education is one of the best investments we can make for Louisiana's future. Our state is the first to establish tax credits to encourage private investment to improve the quality of care and education for young children. School Readiness Tax Credits allow Louisiana businesses to turn their tax liabilities into an investment that ensures all children will have a strong foundation for future success in school life. For every dollar up to \$5,000 contributed to the Children's Coalition, businesses receive dollar-for-dollar refundable credit on state taxes. In turn, this allows the Children's Coalition to bring quality child care and education to every child in Northeast Louisiana.
